PROFILE SUMMARY

- Experienced System Engineer with 3 years of experience in designing, developing, and optimizing back-end applications.
- Proficient in Java, Spring Boot, Microservices, and SQL. Passionate about problem-solving, performance enhancement, and contributing to innovative, scalable solutions. Strong knowledge of cloud-based deployments, DevOps, and continuous improvements.
- Strong communicator with exceptional time management skills, capable of thriving in dynamic Agile(scrum) environments.

TECHNICAL SKILLS

Languages & Databases: Core Java, Java 8, Spring Boot, SQL, Oops Concepts, Hibernate, Spring JPA, MongoDB

Frameworks : Microservices architecture, RESTful APIs

DevOps & Tools: Kubernetes, Docker, CI/CD Pipelines, Jenkins, Git

Cloud Platforms: AWS (EKS), Azure DevOps

IDE & Tools: IntelliJ IDEA, VS Code, Postman, SQL Developer, DBeaver

WORK EXPERIENCE

System Engineer   **Tata Consultancy Services Limited, Bengaluru**

March 2022 - Present

Projects

Postnord AB Nova System, March 2022- present

- Developed and deployed backend applications using Java, Spring boot & Microservices architecture.
- Built and maintain RESTful APIs to support front-end services and third party integrations.
- Actively worked in an Agile environment utilizing the Scrum methodology.
- Optimized application performance, scalability, and security to ensure high availability.
- Designed, coded, and tested complex applications, ensuring clean, reusable, and well-documented code.
- Participated in architectural design discussions and contributed to technical decisions.
- Managed deployments using CI/CD pipelines (Jenkins) and AWS cloud services (EKS).
- Debugged and resolved production issues to ensure seamless operations.
- Deployed microservices in Kubernetes, managing high scalability and performance.
- Conducted code reviews and technical issue analysis for continuous improvement.
- Hands-on experience with Postman, SoapUI, and unit testing tools.
- Worked extensively with relational databases (SQL) and non-relational databases (MongoDB).
- Used version control tools like Git for source code management.

EDUCATION

Bachelor of Computer Applications(BCA)   **Shri Guru Sudhindra BCA College Bhatkal**
                                                                                                                               2017 - 2020

CERTIFICATIONS

Certified Java Frontend Developer : Info Campus Marathahalli, Bengaluru
