

RAJAGOPAL V

AWS Cloud Engineer | AWS DevOps Engineer | Infrastructure Engineer

Bangalore, India | +91-6374914383 | rajagopal05062000@gmail.com | linkedin.com/in/v-rajagopal

PROFESSIONAL SUMMARY

AWS Cloud and DevOps Engineer with 4.6+ years of experience designing, deploying, automating, and supporting scalable, highly available cloud infrastructure on Amazon Web Services (AWS) for a global pharmaceutical client. Progressed from AWS Cloud Engineer to DevOps Engineer within the same program – hands-on across CI/CD pipeline automation (GitHub Actions, Jenkins), Infrastructure as Code (Terraform, CloudFormation, Ansible), containerization and orchestration (Docker, Kubernetes/EKS, ECS/ECR, Helm, Argo CD), serverless architecture (Lambda, API Gateway), Python/Boto3 automation, monitoring and observability (CloudWatch, Prometheus, Grafana), Linux administration, and ITSM (ServiceNow). Improved deployment efficiency reduced manual effort by 60% and maintained 99.9% availability in regulated production environments.

PROFESSIONAL EXPERIENCE

Tata Consultancy Services (TCS) – Bengaluru, India

Client: Global Pharmaceutical Client – Cloud Infrastructure & Platform Engineering Program

AWS Cloud Engineer / DevOps Engineer – Pharmaceutical Client Program

Dec 2021 – Present | Bengaluru | (4.6 Years)

- Designed and provisioned scalable AWS infrastructure using Terraform and CloudFormation – EC2, ECS, RDS, S3, CloudFront, Route 53 – across dev, test, and production environments.
- Developed serverless/microservices solutions using AWS Lambda, API Gateway, DynamoDB, and WebSocket APIs for real-time, event-driven workflows; built a Python/Boto3 proxy service integrating 5+ third-party systems, improving application performance by 30%.
- Built CI/CD pipelines using GitHub Actions and Jenkins to automate build, test, and deployment of containerized microservices, cutting release cycle time by 40%.
- Containerized applications with Docker and orchestrated deployments on Kubernetes (EKS) and ECS/ECR, including Deployments, Services, Helm charts, and pod scaling; used Argo CD for GitOps-based delivery and rollbacks.
- Automated infrastructure and operations using Python (Boto3), Shell scripting, Terraform, CloudFormation, and Ansible, reducing manual effort by 60% and improving deployment consistency and cost efficiency.
- Configured IAM, VPC, ALB, CloudWatch, CloudTrail, Prometheus, and Grafana for secure networking, monitoring, observability, and incident response.
- Implemented disaster recovery using S3 Versioning, RDS Snapshots, and Multi-AZ deployments; performed Linux (EC2) administration and troubleshooting to support production stability.
- Owned end-to-end AWS cloud operations – IAM administration, VPC networking, monitoring, backup automation, security hardening, and cost optimization – maintaining 99.9% uptime.
- Managed ServiceNow ITSM workflows (Incident, Problem, Change, Request Management) and led Root Cause Analysis (RCA) on production issues to ensure SLA compliance.

TECHNICAL SKILLS

Cloud Platform: Amazon Web Services (AWS)

AWS Services: EC2, VPC, IAM, S3, RDS, DynamoDB, Lambda, API Gateway, ECS, ECR, Route 53, CloudFront, ALB/NLB, Auto Scaling, Step Functions, Secrets Manager, SNS, SQS, Event Bridge, CloudWatch, CloudTrail

DevOps & CI/CD: Git, GitHub, GitHub Actions, Jenkins, Argo CD (GitOps)

IaC & Config Management: Terraform, AWS CloudFormation, Ansible, Infrastructure Provisioning, Environment Standardization

Containers & Orchestration: Docker, Kubernetes, Amazon EKS, Amazon ECS/ECR, Helm, Deployments, Services, ConfigMaps, Pod Scaling, Rolling Updates

Programming / Automation: Python, Boto3, Shell Scripting, Linux Administration & Troubleshooting

Monitoring & Observability: CloudWatch, CloudTrail, Prometheus, Grafana, SNS Alerting

Security & Reliability: IAM, VPC, Security Hardening, High Availability, Disaster Recovery, S3 Versioning, RDS Snapshots, Multi-AZ

ITSM & Database: ServiceNow (Incident/Problem/Change/RCA), DynamoDB, SQL

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (SAA-C03) – Valid: Jun 2025 – Jun 2028
- AWS Certified Cloud Practitioner (CLF-C02) – Valid: Oct 2024 – Oct 2027

EDUCATION

B.E. Electronics and Communication Engineering – Er. Perumal Manimekalai College of Engineering, Hosur, Tamil Nadu | 2017 – 2021 | CGPA: 7.4/10
